How It Works

Step One.

We place a pixel on your website.

Step Two

As people visit your website we match them with our database of 250MM people & capture up to 80% of users that visit your site.

Step Three

You get their most actively used email address, full name, pages they visited on your site and a lead score.

Step Four

You can directly upload this list to your email provide, just be sure to incorporate an Unsubscribe link if sending emails out.

Step Five

You can market directly to these highly targeted audiences with the platforms you are already using or we can do it for you.

Precise Accuracy, Backed By Big Data & Proprietary Algorithms

Simply put, we deliver the most accurate, transaction-ready data on the market today....and at a fraction of the cost.
